- (8) In the event an applicant or licensee, or other individual has a question regarding legal, ethical, and professional standards, neither the Commissioner nor the Registry's administrative personnel shall consider such questions unless presented with a proper petition for a declaratory order, subject to the requirements set forth in T.C.A. §4-5-223.
- (9) A licensee shall keep his licensure file updated by notifying the Registry's administrative office in writing of changes in preferred mailing address and practice address.
- (10) A licensee's office, including instruments and equipment contained therein, shall at all times be kept clean and free from any condition or surroundings that will make or tend to make the office unsanitary or unhygienic.
- (11) No licensee may provide services to the public if the licensee has a known infectious or contagious disease unless the licensee takes appropriate precautions and uses safeguards which prevent the spread of the disease to the public.
- (12) Services provided by a licensee shall be performed in a manner that is consistent with basic and accepted practice standards and in accordance with all applicable state statutes, rules, and local codes and ordinances.

**0540-01-.15 DISCIPLINARY ACTIONS AND CIVIL PENALTIES.** The purpose of this rule is to define disciplinary actions that the Commissioner may impose on licensees.

- (1) Upon a finding by the Commissioner that an electrologist or electrology instructor has violated any provision of the Tennessee Electrologists Practice Act (T.C.A. §§ 63-26-101, et. seq.) or the rules promulgated pursuant thereto, the Commissioner may impose any of the following actions separately or in any combination deemed appropriate to the offense:
  - (a) Advisory Censure - This is a written action issued to the electrologist for minor or near infractions. It is informal and advisory in nature and does not constitute a formal disciplinary action.
  - (b) Formal censure or reprimand - This is a written action issued to an electrologist for one time and less severe violations. It is a formal disciplinary action.
  - (c) Probation - This is a formal disciplinary action which places an electrologist on close scrutiny for a fixed period of time determined by the Commissioner. This action may be

(Rule 0540-01-.15, continued)

combined with conditions which must be met before probation will be lifted and/or which restrict the individual's activities during the probationary period.

- (d) Licensure Suspension - this is a formal disciplinary action which suspends an individual's right to practice for a fixed period of time. It contemplates the reentry of the individual into the practice under the licensure previously issued. When the Commissioner suspends a license, the person may not practice electrology during the period of suspension.
  - (e) Revocation for cause. This is the most severe form of disciplinary action which removes an individual from the practice of the profession and terminates the certification or licensure previously issued. The Commissioner, in his or her discretion, may allow reinstatement of a revoked certificate or license upon conditions and after a period of time it deems appropriate. No petition for reinstatement and no new application for certification or licensure from a person whose license was revoked shall be considered prior to the expiration of at least one (1) year unless otherwise stated in the Commissioner's revocation order.
  - (f) Conditions - These include any action deemed appropriate by the Commissioner to be required of an individual disciplined during any period of probation or suspension or as a prerequisite to the lifting of probation or suspension or the reinstatement of a revoked license.
  - (g) Civil penalty – A monetary disciplinary action assessed by the Commissioner pursuant to paragraph (5) of this rule.
- (2) Once ordered, probation, suspension, revocation, assessment of a civil penalty, or any other condition of any type of disciplinary action may not be lifted unless and until the licensee petitions the Commissioner, pursuant to paragraph (3) of this rule, after the period of initial probation, suspension, revocation, or other conditioning has run, and all conditions placed on the probation, suspension, revocation, have been met, and after any civil penalties assessed have been paid.
- (3) Order of Compliance - This procedure is a necessary adjunct to previously issued disciplinary orders and is available only when a petitioner has completely complied with the provisions of a previously issued disciplinary order, including an unlicensed practice civil penalty order, and wishes or is required to obtain an order reflecting that compliance.
- (a) The Commissioner will entertain petitions for an Order of Compliance as a supplement to a previously issued order upon strict compliance with the procedures set forth in subparagraph (b) in only the following three (3) circumstances:
    - 1. When the petitioner can prove compliance with all the terms of the previously issued order and is seeking to have an order issued reflecting that compliance;
    - 2. When the petitioner can prove compliance with all the terms of the previously issued order and is seeking to have an order issued lifting a previously ordered suspension or probation; or
    - 3. When the petitioner can prove compliance with all the terms of the previously issued order and is seeking to have an order issued reinstating a license previously revoked.
  - (b) Procedures

(Rule 0540-01-.15, continued)

1. The petitioner shall submit a Petition for Order of Compliance, as contained in subparagraph (c), to the Registry's Administrative Office that shall contain all of the following:
  - (i) A copy of the previously issued order; and
  - (ii) A statement of which provision of subparagraph (a) the petitioner is relying upon as a basis for the requested order; and
  - (iii) A copy of all documents that prove compliance with all the terms or conditions of the previously issued order. If proof of compliance requires testimony of an individual(s), including that of the petitioner, the petitioner must submit signed statements from every individual the petitioner intends to rely upon attesting, under oath, to the compliance. The Commissioner and the Registry's administrative staff, in their discretion, may require such signed statements to be notarized. No documentation or testimony other than that submitted will be considered in making an initial determination on, or a final order in response to, the petition.
2. The Commissioner authorizes the Registry's administrative staff to make an initial determination on the petition and take one of the following actions:
  - (i) Certify compliance and present the petition to the Commissioner as an uncontested matter; or
  - (ii) Deny the petition, after consultation with legal staff, if compliance with all of the provisions of the previous order is not proven and notify the petitioner of what provisions remain to be fulfilled and/or what proof of compliance was either not sufficient or not submitted.
3. The petitioner may not submit any additional documentation or testimony other than that contained in his petition as submitted to the Commissioner and the Registry's administrative staff.
4. If the Commissioner finds that the petitioner has complied with all the terms of the previous order the Commissioner shall issue an Order of Compliance.
5. If the petition is denied either initially by the Registry's administrative staff or after review by the Commissioner, and the petitioner believes compliance with the order has been sufficiently proven, the petitioner may, as authorized by law, file a petition for a declaratory order pursuant to the provisions of T.C.A. § 4-5-223 and rule 1200-10-01-.11.

- (4) Order Modifications - This procedure is not intended to allow anyone under a previously issued disciplinary order, including an unlicensed practice civil penalty order, to modify any findings of fact, conclusions of law, or the reasons for the decision contained in the order. It is also not intended to allow a petition for a lesser disciplinary action, or civil penalty other than the one(s) previously ordered. All such provisions of disciplinary orders were subject to reconsideration and appeal under the provisions of the Uniform Administrative Procedures Act (T.C.A. §§ 4-5-301, et seq.). This procedure is not available as a substitute for reconsideration and/or appeal and is only available after all reconsideration and appeal rights have been either exhausted or not timely pursued. It is also not available for those who have accepted and been issued a reprimand.
  - (a) The Commissioner will entertain petitions for modification of the disciplinary portion of previously issued orders upon strict compliance with the procedures set forth in subparagraph (b) only when the petitioner can prove that compliance with any one or more of the conditions or terms of the discipline previously ordered is impossible. For purposes of this rule the term "impossible" does not mean that compliance is inconvenient or impractical for personal, financial, scheduling or other reasons.

If proof of impossibility of compliance requires testimony of an individual(s), including that of the petitioner, the petitioner must submit signed and notarized statements from every individual the petitioner intends to rely upon attesting, under oath, to the reasons why compliance is impossible. No documentation or testimony other than that submitted will be considered in making an initial determination on, or a final order in response to, the petition.
2. The Commissioner authorizes the Registry's administrative staff in conjunction with legal staff to make an initial determination on the petition and take one of the following actions:
  - (i) Certify impossibility of compliance and forward the petition to the Commissioner as an uncontested matter; or
  - (ii) Deny the petition, if impossibility of compliance with the provisions of the previous order is not proven and notify the petitioner of what proof of impossibility of compliance was either not sufficient or not submitted.
3. The petitioner may not submit any additional documentation or testimony other than that contained in the petition as originally submitted to the Commissioner and Registry's administrative staff.
4. If the petition is granted a new order shall be issued reflecting the modifications authorized by the Commissioner that he deemed appropriate and necessary in relation to the violations found in the previous order.
5. If the petition is denied either initially by the Registry's administrative staff or after review by the Commissioner, and the petitioner believes impossibility of compliance with the order has been sufficiently proven, the petitioner may, as authorized by law, file a petition for a declaratory order pursuant to the provisions of T.C.A. § 4-5-223 and rule 1200-10-01-.11.

(5) Civil Penalties

(a) Purpose - The purpose of this rule is to set out a schedule designating the minimum and maximum civil penalties which may be assessed pursuant to T.C.A. § 63-1-134.

(b) Schedule of Civil Penalties

1. A Type A civil penalty may be imposed whenever the Commissioner finds the person who is required to be licensed by the Commissioner is guilty of a willful and knowing violation of the Electrologists Practice Act, or regulations promulgated pursuant thereto, to such an extent that there is, or is likely to be an imminent substantial threat to the health, safety, and welfare of an individual client or the public. For purposes of this section, a Type A penalty shall include, but not be limited to, a person who willfully and knowingly is or was practicing as an electrologist without a license from the Commissioner.
2. A Type B civil penalty may be imposed whenever the Commissioner finds the person required to be licensed by the Commissioner is guilty of a violation of the Electrologists Practice Act or regulations promulgated pursuant thereto in such manner as to impact directly on the care of clients or the public.

(Rule 0540-01-.15, continued)

3. A Type C civil penalty may be imposed whenever the Commissioner finds the person required to be licensed, permitted, or authorized by the Commissioner is guilty of a violation of the Electrologists Practice Act or regulations promulgated thereto, which are neither directly detrimental to clients or the public, nor directly impact their care, but have only an indirect relationship to client care or the public.

(c) Amount of Civil Penalties

1. Type A civil penalties shall be assessed in the amount of not less than \$500 nor more than \$1,000.
2. Type B civil penalties may be assessed in the amount of not less than \$100 and not more than \$500.
3. Type C civil penalties may be assessed in the amount of not less than \$50 and not more than \$100.

(d) Procedures for Assessing Civil Penalties

1. The Division of Health Related Boards may initiate a civil penalty assessment by filing a Memorandum of Assessment of Civil Penalty. The Division shall state in the memorandum the facts and law upon which it relies in alleging a violation, the proposed amount of the civil penalty and the basis for such penalty. The Division may incorporate the Memorandum of Assessment of Civil Penalty with a Notice of Charges which may be issued attendant thereto.
2. Civil Penalties may also be initiated and assessed by the Commissioner during consideration of any Notice of Charges. In addition, the Commissioner may, upon good cause shown, assess a type and amount of civil penalty which was not recommended by the Division.
3. In assessing the civil penalties pursuant to these rules the Commissioner may consider the following factors:
  - (i) Whether the amount imposed will be a substantial economic deterrent to the violator;
  - (ii) The circumstances leading to the violation;
  - (iii) The severity of the violation and the risk of harm to the public;
  - (iv) The economic benefits gained by the violator as a result of non-compliance; and.
  - (v) The interest of the public.
4. All proceedings for the assessment of civil penalties shall be governed by the contested case provisions of T.C.A. Title 4, Chapter 5.

**0540-01-.20 ADVERTISING.**

- (1) Policy Statement. The lack of sophistication on the part of many of the public concerning electrology services, the importance of the interests affected by the choice of an electrologist or electrology instructor and the foreseeable consequences of unrestricted advertising by electrologists which is recognized to pose special possibilities for deception require that special care be taken by electrologists to avoid misleading the public. The electrologist must be mindful that the benefits of advertising depend upon its reliability and accuracy. Since advertising by an electrologist is calculated and not spontaneous, reasonable regulations designed to foster compliance with appropriate standards serve the public interest without impeding the flow of useful, meaningful information to the public.
- (2) Advertising Fees and Services
  - (a) Fixed fees may be advertised for any service. It is presumed unless otherwise stated in the advertisement that a fixed fee for a service shall include the cost of all professional, recognized components within generally accepted standards that are required to complete the service.
  - (b) Range of Fees. A range of fees may be advertised for services, but the advertisement must disclose the factors used in determining the actual fee to the extent necessary to prevent deception of the public.
  - (c) Discount fees may be advertised if:
    1. The discount fee is in fact lower than the licensee's customary or usual fee charged for the service, and
    2. The licensee provides the same quality and components of service and material at the discounted fee that are normally provided at the regular non-discounted fee for that service.
  - (d) Related Services and Additional Fees. Related services which may be required in conjunction with the advertised services for which additional fees will be charged must be identified as such in any advertisement.
  - (e) Time Period of Advertised Fees
    1. Advertised fees shall be honored for those seeking the advertised services during the entire time period stated in the advertisement whether or not the services are actually rendered or completed within that time.
    2. If no time period is stated in the advertisement of fees, the advertised fee shall be honored for thirty (30) days from the last date of publication or until the next scheduled publication whichever is later whether or not the services are actually rendered or completed within that time.
- (3) Advertising Content. The following acts or omissions in the context of advertisement by any licensee shall constitute unethical and unprofessional conduct, and subject the licensee to disciplinary action pursuant to T.C.A. §63-26-123(4):

(Rule 0540-01-.20, continued)

- (a) Claims that the services performed, personnel employed, materials or office equipment used are professionally superior to that which is ordinarily performed, employed, or used, or that convey the message that one licensee is better than another when superiority of services, personnel, materials or equipment cannot be substantiated.
- (b) The misleading use of an unearned credential in any advertisement.
- (c) Promotion of professional services which the licensee knows or should know are beyond the licensee's ability to perform.
- (d) Techniques of communication which intimidate or exert undue pressure or undue influence over a prospective client.
- (e) Any appeals to an individual's anxiety in an excessive or unfair manner.
- (f) The use of any personal testimonial attesting to a quality of competency of a service or treatment offered by a licensee that is not reasonably verifiable.
- (g) Utilization of any statistical data or other information based on past performances for prediction of future services, which creates an unjustified expectation about results that the licensee can achieve.
- (h) The communication of personal identifiable facts, data, or information about a client without first obtaining client consent.
- (i) Any misrepresentation of material fact.
- (j) The knowing suppression, omission or concealment of any material facts or law without which the advertisement would be deceptive or misleading.
- (k) Statements concerning the benefits or other attributes of electrology procedures or products that involve significant risks without including:
  - 1. A realistic assessment of the safety and efficiency of those procedures or products
  - 2. The availability of alternatives; and
  - 3. Where necessary to avoid deception, descriptions or assessment of the benefits or other attributes of those alternatives.
- (l) Any communication which creates an unjustified expectation concerning the potential results of any electrology treatment.
- (m) Failure to comply with the rules governing advertisement of electrology fees and services, or advertising records.
- (n) The use of bait and switch advertisements. Where the circumstances indicate bait and switch advertising, the Commissioner may require the licensee to furnish data or other evidence pertaining to those sales at the advertised fee as well as other sales.
- (o) Misrepresentation of a licensee's credentials, training, experience, or ability.
- (p) Failure to include the individual licensee's name, address, and telephone number in any advertisement.

(Rule 0540-01-.20, continued)

- (q) Failure to disclose the fact of giving compensation or anything of value to a representative of the press, radio, television, or other communicative medium in anticipation of or in return for any advertisement (for example, newspaper article) unless the nature, format or medium of such advertisement make the fact of compensation apparent.
  - (r) After thirty (30) days, the use of the name of any licensee formerly practicing at or associated with any advertised location or on office signs or buildings. (This rule shall not apply in the case of a retired or deceased former associate who practiced electrology in association with one or more of the present occupants if the status of the former associate is disclosed in any advertisement or sign.)
  - (s) Stating or implying that a certain licensee provides all services when any such services are performed by another licensee.
  - (t) Directly or indirectly offering, giving, receiving, or agreeing to receive any fee or other consideration to or from a third party for the referral of a client in connection with the performance of professional services.
- (4) Advertising Records and Responsibility
- (a) Each licensee who is a principal partner, or officer of a firm or entity identified in any advertisement, is jointly and severally responsible for the form and content of any advertisement. This provision shall also include any licensed professional employees acting as an agent of such firm or entity.
  - (b) Any and all advertisements are presumed to have been approved by the licensee named therein.
  - (c) A recording of every advertisement communicated by electronic media, and a copy of every advertisement communicated by print media, and a copy of any other form of advertisement, shall be retained by the licensee for a period of two (2) years from the last date of broadcast or publication and be made available for review upon request by the Commissioner or the Registry's administrative office.
  - (d) At the time any type of advertisement is placed, the licensee must possess and rely upon information which, when produced, would substantiate the truthfulness of any assertion, omission, or representation of material fact set forth in the advertisement or public communication.
- (5) Advertisements for electrology services to be rendered by a limited license electrologist must clearly indicate that the electrology services are being rendered by a limited license electrologist under the direct supervision of a board certified or board eligible dermatologist.
- (6) Use of Titles - Any person who possesses a valid, current and active license issued by the Commissioner that has not been suspended or revoked has the right to use the title "electrologist" and to practice electrology, as defined in T.C.A. §§ 63-26-102. Any person licensed by the Commissioner to whom this rule applies must use the title authorized by this rule in every "advertisement" [as that term is defined in rule 0540-01-.01(1)] he or she publishes. The failure to do so will constitute an omission of a material fact which makes the advertisement misleading and deceptive and subjects the electrologist to disciplinary action pursuant to T.C.A. § 63-26-123.
