 - (b) Furnishing of assistance in the case of an emergency.
 - (c) Persons employed in institutions, agencies, or in the office of a licensed physician or dentist, assisting in the nursing care of patients where adequate medical or nursing supervision or both is provided. Assisting is defined to mean helping, aiding, or cooperating. Adequate supervision is defined to mean overseeing or inspecting with authority. The basic responsibility of the individual nurse who is required to supervise others is to determine which of the nursing needs can be delegated safely to others, and to determine whether the individual to whom the duties are entrusted must be supervised personally. The following are tasks commonly performed by such persons:
 1. Answers patient's signals, provides necessary assistance in conforming with delegated tasks, and notifies the appropriate nurse when the situation so indicates.
 2. Assists with admission, transfer, and discharge of patients.
 3. Assists with the dressing and undressing of patients.
 4. Assists with the patients' baths.
 5. Assists with the measuring of fluid intake and output of patients and the recording on appropriate forms.
 6. Assists with the collection of urine, stool, and sputum specimens.
 7. Assists with the feeding of patients.
 8. Assists with the weighing of patients.
 9. Assists with the making of patients' beds.
 10. Assists with the application and removal of such protective devices as side rails, footboards, and bed cradles.
 11. When a licensed practical nurse undertakes to supervise other nursing tasks requiring greater skill and knowledge by such persons, the following requirements shall apply:
 - (i) Such persons shall assist with and undertake only those nursing tasks which they are qualified to perform.
 - (ii) The licensed practical nurse shall supervise such persons.

(Rule 1000-02-.04, continued)

- (iii) The licensed practical nurse shall retain professional accountability for nursing care when such persons are performing these activities.
 - (iv) The licensed practical nurse shall not require assistance with or supervise nursing care activities or responsibilities by such persons contrary to the nurse practice act or rules and regulations to the detriment of patient care.
 - (v) Such persons shall have had proper instruction and supervised practice and shall have demonstrated competency in the procedure or activity.
 - (vi) There is documentation of continued competency by such persons in the performance of the procedure or activity.
 - (vii) There are written policies and procedures regarding the conditions under which the procedure or activity shall be performed by such persons.
- (d) The practice of nursing incidental to a program of study by students enrolled in nursing education programs approved by the Board is exempt from a licensure; however, a student of a school of nursing shall not be employed in a capacity requiring a licensed person.
 - (e) Persons belonging to a recognized church or religious denominations having religious teachings and beliefs in regard to the care of the sick by prayer.
 - (f) Care of persons in their homes by domestic servants or aides if not initially employed in a nursing capacity.
 - (g) Employees of the U.S. Government, provided they are lawfully qualified to practice nursing in another state.
 - (h) The practice of any currently licensed nurse of another state who is presenting educational programs or consultative services within this state for a period not to exceed fourteen (14) days in a calendar year.
 - (i) The practice of any currently licensed nurse of another state whose responsibility include transporting patients into, out of, or through this state. Such exemption shall be limited to a period not to exceed forty-eight (48) hours for each transport.
 - (j) The practice of nursing by students who are enrolled in Board approved refresher programs or comprehensive orientation programs.
- (3) Responsibility.
- (a) Each individual is responsible for personal acts of negligence under the law. Licensed practical nurses are liable if they perform delegated functions they are not prepared to handle by education and experience and for which supervision is not provided. In any patient care situation, the licensed practical nurse should perform only those acts for which each has been prepared and has demonstrated ability to perform, bearing in mind the individual's personal responsibility under the law.
 - (b) The Board acknowledges that licensed practical nurses have knowledge and preparation in nursing, but not to the extent required of registered nurses. The Board recognizes that licensed practical nurses engage in activities which require greater skill and knowledge than that obtained in the basic licensed practical nurse curriculum. It is the intent and purpose of these rules that licensed practical nurses only perform

(Rule 1000-02-.04, continued)

additional activities to the extent that the activity is related to the underlying scientific principles in the basic practical nurse curriculum.

- (c) Before performing activities requiring greater skill and knowledge, the following criteria must be met.
 - 1. The education or inservice shall be related to the underlying scientific principles contained in the basic practical nurse curriculum;
 - 2. The individual shall have appropriate continuing education in the procedure or activity; and
 - 3. The individual must demonstrate competency in the practice.
- (4) Discipline.
 - (a) The Board has the power to deny, revoke, or suspend any certificate or license to practice nursing as provided in the Nursing Acts 1967, T.C.A. § 63-7-115.
 - (b) The procedure for revocation, suspension or reissuance of a license is described in the Nursing Acts 1967, T.C.A. § 63-7-115.
 - (c) Any member of the Board may grant or deny a petition for reconsideration of a final order, as provided in rule 1360-04-01-.18(1)(b).
 - (d) Any member of the Board may, if adequate public notice is given, schedule a hearing on a petition for a stay, as provided in rule 1360-04-01-.18(2).
- (5) Order Modifications - This procedure is not intended to allow anyone under a previously issued disciplinary order, including an unlicensed practice civil penalty order, to modify any findings of fact, conclusions of law, or the reasons for the decision contained in the order. It is also not intended to allow a petition for a lesser disciplinary action, or civil penalty other than the one(s) previously ordered. All such provisions of Board orders were subject to reconsideration and appeal under the provisions of the Uniform Administrative Procedures Act (T.C.A. §§ 4-5-301, et seq.). This procedure is not available as a substitute for reconsideration and/or appeal and is only available after all reconsideration and appeal rights have been either exhausted or not timely pursued. It is also not available for those who have accepted and been issued a reprimand.
 - (a) The Board will entertain petitions for modification of the disciplinary portion of previously issued orders upon strict compliance with the procedures set forth in subparagraph (b) only:
 - 1. When the petitioner can persuade and demonstrate to the Board that compliance with any one (1) or more of the conditions or terms of the discipline previously ordered should not be required due to circumstances deemed compelling by the Board; or
 - 2. When the petitioner can prove that compliance with any one (1) or more of the conditions or terms of the discipline previously ordered is impossible. For purposes of this rule the term "impossible" does not mean that compliance is inconvenient for personal, financial, scheduling or other reasons.
 - (b) Procedures

(Rule 1000-02-.04, continued)

1. The petitioner shall submit a written and signed Petition for Order Modification on the form contained in subparagraph (c) to the Board's Administrative Office that shall contain all of the following:
 - (i) A copy of the previously issued order; and
 - (ii) A statement of why the petitioner believes compliance with the order as issued cannot or should not be achieved; and
 - (iii) A copy of all documents that are relevant to meeting the provisions of subparagraph (a). If proof of the need for order modification requires testimony of an individual(s), including that of the petitioner, the petitioner must submit signed and notarized statements from every individual the petitioner intends to rely upon attesting, under oath, to the reasons why compliance is impossible or should not be required. No documentation or testimony other than that submitted will be considered in making an initial determination on, or a final order in response to, the petition.

2. The Board authorizes its Executive Director, or any Board member, or any Board consultant, or any Board-appointed designee to make an initial determination on the petition and take one of the following actions:
 - (i) Confirm the petitioner's legitimate difficulties with achieving compliance and forward the petition to the Office of General Counsel for presentation to the Board as an uncontested matter; or
 - (ii) Deny the petition, after consultation with legal staff, if the petitioner's difficulties with achieving compliance are not proven to be legitimate, and notify the petitioner of what was either not sufficient or not submitted.

3. If the petition is presented to the Board the petitioner may not submit any additional documentation or testimony other than that contained in the petition as originally submitted.

4. If the petition is granted a new order shall be issued reflecting the modifications authorized by the Board that it deemed appropriate and necessary in relation to the violations found in the previous order.

5. If the petition is denied either initially by the Board's Executive Director, or any Board member, or any Board consultant, or any Board-appointed designee or after presentation to the Board and the petitioner believes documentation supporting a legitimate inability to achieve compliance with the order has been sufficiently proven the petitioner may, as authorized by law, file a petition for a declaratory order pursuant to the provisions of T.C.A. § 4-5-223 and rule 1200-10-01-.11.

(6) Civil Penalties.

(a) Schedule of Civil Penalties

1. A Type A Civil Penalty may be imposed whenever the Board finds a person who is required to be licensed, certified, permitted, or authorized by the Board, guilty of a willful and knowing violation of the Nursing Practice Act, or regulations pursuant thereto, to such an extent that there is, or likely to be, an imminent, substantial threat to the health, safety and welfare of an individual patient or the public. For purpose of this section, willfully and knowingly practicing professional nursing without a permit, license, certification, or other authorization from the Board is one of the violations of the Nursing Practice Act for which a Type A Civil Penalty is assessable.
2. A Type B Civil Penalty may be imposed whenever the Board finds a person to be licensed, certified, permitted, or authorized by the Board, guilty of a violation of the Nursing Practice Act or regulations pursuant thereto in such manner as to impact directly on the care of patients of the public.
3. A Type C Civil Penalty may be imposed whenever the Board finds the person required to be certified, permitted or authorized by the Board, guilty of a violation

(Rule 1000-02-.04, continued)

of the Nursing Practice Act or regulations pursuant thereto, which are neither directly detrimental to the patients or public, nor directly impact their care, but have only an indirect relationship to patient care or the public.

(b) Amount of Civil Penalties

1. Type A Civil Penalties shall be assessed in the amount of not less than \$500 or more than \$1,000.
2. Type B Civil Penalties may be assessed in the amount of not less than \$100 nor more than \$750.
3. Type C Civil Penalties may be assessed in the amount of not less than \$50 nor more than \$500.

(c) Procedures for Assessing Civil Penalties

1. The Division of Health Related Boards may initiate a civil penalty assessment by filing a Memorandum of Assessment of Civil Penalty. The Division shall state in the memorandum the facts and law upon which it relies in alleging a violation, the proposed amount of the civil penalty and the basis for such penalty. The Division may incorporate the Memorandum of Assessment of Civil Penalty with a Notice of Charges which may be issued attendant thereto.
 2. Civil Penalties may also be initiated and assessed by the Board during consideration of any Notice of Charges. In addition, the Board may, upon good cause shown, assess a type and amount of civil penalty which was not recommended by the Division.
 3. In assessing the civil penalties pursuant to these rules the Board may consider the following factors:
 - (i) Whether the amount imposed will be a substantial economic deterrent to the violator;
 - (ii) The circumstances leading to the violation;
 - (iii) The severity of the violation and the risk of harm to the public;
 - (iv) The economic benefits gained by the violator as a result of non-compliance; and,
 - (v) The interest of the public.
 4. All proceedings for the assessment of civil penalties shall be governed by the contested case provisions of Title 4, Chapter 5, T.C.A.
- (7) Screening Panels - Any screening panel(s) established pursuant to T.C.A. §§ 63-7-115 and 63-7-207:
- (a) Shall have concurrent authority with the Board members and any individual nurse designated by the Board to do the acts enumerated therein and subject to the conditions contained therein.
 1. A Screening panel(s) comprised of three (3) or more persons shall elect a chairperson prior to convening to conduct business. The screening panel(s) shall

(Rule 1000-02-.04, continued)

include at least one (1) but no more than three (3) licensed nurses who may be members of the board or may serve voluntarily or through employment by or under contract with the board.

2. A Screening panel(s) comprised of two (2) or more persons is required to conduct the informal hearings authorized in subparagraph (b) immediately below.

(b) After review of a complaint by the Board's consultant, or after completion of an investigation by the Division, a screening panel may upon request of either the state, or the licensee who is the subject of an investigation, or upon agreement of both the licensee and the state, conduct a non-binding informal hearing and make recommendations as a result thereof as to what, if any, terms of settlement of any potential disciplinary action are appropriate.

1. Neither the Rules of Civil Procedure, the rules of Evidence or Contested Case Procedural Rules under the Administrative Procedures Act shall apply in informal hearings before the screening panels(s).

(i) Evidence may be presented or received in any manner and in whatever order agreed upon by the parties.

(ii) Prior to convening the panel and in the absence of an agreement of the parties, the screening panel chairperson shall determine the manner and order of presentation of evidence.

2. Informal hearings may be conducted without the participation of the licensee who is the subject of the investigation.

3. A licensee who is the subject of an investigation being considered by a screening panel cannot be compelled to participate in any informal hearing.

4. It is not required that prior or subsequent notice of any informal hearing be given to any licensee who is the subject of an investigation being considered by a screening panel.

5. Proposed settlements reached as a result of any informal hearing will not become binding and final unless they are:

(i) Approved by a majority of the members of the screening panel which issued them; and

(ii) Agreed to by both the Department of Health, by and through its attorney(s), and the licensee; and

(iii) Subsequently presented to and ratified by the Board or a duly constituted panel of the Board.

(8) Subpoenas

(a) Purpose - Although this rule applies to persons and entities other than nurses, it is the Board's intent as to nurses that they be free to comprehensively treat and document treatment of their patients without fear that the treatment or its documentation will be unduly subjected to scrutiny outside the profession. Consequently, balancing that intent against the interest of the public and patients to be protected against substandard care and activities requires that persons seeking to subpoena such information and/or materials must comply with the substance and procedures of these rules.

(Rule 1000-02-.04, continued)

It is the intent of the Board that the subpoena power outlined herein shall be strictly proscribed. Such power shall not be used by the division or board investigators to seek other incriminating evidence against nurses when the division or board does not have a complaint or basis to pursue such an investigation. Thus, unless the division or its investigators have previously considered, discovered, or otherwise received a complaint from either the public or a governmental entity, then no subpoena as contemplated herein shall issue.

(b) Definitions - As used in this chapter of rules the following words shall have the meanings ascribed to them:

1. Probable Cause

(i) For Investigative Subpoenas - shall mean that probable cause, as defined by case law at the time of request for subpoena issuance is made, exists that a violation of the Nursing Practice Act or rules promulgated pursuant thereto has occurred or is occurring and that it is more probable than not that the person(s), or items to be subpoenaed possess or contain evidence which is more probable than not relevant to the conduct constituting the violation.

(ii) The utilization of the probable cause evidentiary burden in proceedings pursuant to this rule shall not in any way, nor should it be construed in any way to establish a more restrictive burden of proof than the existing preponderance of the evidence in any civil disciplinary action which may involve the person(s) or items that are the subject of the subpoena.

2. Presiding Officer - For investigative subpoenas shall mean any elected officer of the board, or any duly appointed or elected chairperson of any panel of the board, or any screening panel, and any hearing officer, arbitrator or mediator, or the Board's advisory attorney.

(c) Procedures

1. Investigative Subpoenas

(i) Investigative Subpoenas are available only for issuance to the authorized representatives of the Tennessee Department of Health, its investigators and its legal staff.

(ii) An applicant for such a subpoena must either orally or in writing notify the Board Director of the intention to seek issuance of a subpoena. That notification must include the following:

(I) The time frame in which issuance is required so the matter can be timely scheduled; and

(II) A particular description of the material or documents sought, which must relate directly to an ongoing investigation or contested case, and shall, in the instance of documentary materials, be limited to the records of the patient or patients whose complaint, complaints, or records are being considered by the division or board.

I. In no event shall such subpoena be broadly drafted to provide investigative access to medical records of other patients who

(Rule 1000-02-.04, continued)

are not referenced in a complaint received from an individual or governmental entity, or who have not otherwise sought relief, review, or board consideration of a nurse's conduct, act, or omission.

- II. If the subpoena relates to the prescribing practices of a licensee, then it shall be directed solely to the records of the patient(s) who received the pharmaceutical agents and whom the board of pharmacy or issuing pharmacy(ies) has so identified as recipients; and
 - (III) Whether the proceedings for the issuance is to be conducted by physical appearance or electronic means; and
 - (IV) The name and address of the person for whom the subpoena is being sought or who has possession of the items being subpoenaed.
- (iii) The Board Director shall cause to have the following done:
- (I) In as timely a manner as possible arrange for either an elected officer of the board, or any duly appointed or elected chairperson of any panel of the board, or any screening panel, or any hearing officer, arbitrator or mediator to preside and determine if the subpoena should be issued; and
 - (II) Establish a date, time and place for the proceedings to be conducted and notify the presiding officer, the applicant and the court reporter; and

 - (v) Engaging in acts of dishonesty which relate to the practice of nursing.
- (2) The Board of Nursing is concerned about the number of individuals with criminal conviction histories who apply for licensure as licensed practical nurses. The Board's concern stems from the fact that nurses care for clients and families in a variety of settings where there may be no direct supervision. Individuals to whom care is given are often vulnerable, both physically and emotionally. The nurse has access to personal information about the patient and/or his/her family, has access to the client's property and provides intimate care to the client. The Board believes that persons who receive nursing care in Tennessee should be able to have confidence that an individual licensed by the Board does not have a history of mistreatment, neglect, violence, cheating, defrauding the public, or otherwise taking advantage of another person. The Board will presume that an applicant is not entitled to licensure, and will therefore deny any application for initial licensure, temporary permit, or renewal following the provisions of the Administrative Procedures Act to a person who has been convicted, and on which conviction the time for appeal has expired, as an adult of any of the following crimes within five (5) years preceding said application or renewal:
- (a) Aggravated Assault, as in T.C.A. § 39-13-102;

1000-02-.16 INTERSTATE NURSE LICENSURE. Pursuant to the Interstate Nurse Licensure Compact, a license to practice practical nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a multistate licensure privilege to practice as a practical nurse in such party state.

- (1) Definitions. As used in this rule, the following terms shall have the following meanings ascribed to them:
 - (a) “Alternative program” means a voluntary, non-disciplinary monitoring program approved by a nurse licensing board.
 - (b) “Board” means party state’s regulatory body responsible for issuing nurse licenses.
 - (c) “Coordinated licensure information system” means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws, which is administered by a non-profit organization composed of state nurse licensing boards.
 - (d) “Current significant investigative information” means:
 1. Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or
 2. Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.
 - (e) “Home state” means the party state which is the nurse’s primary state of residence.
 - (f) “Information System” means the coordinated licensure information system.
 - (g) “Interstate Nurse Licensure Compact” means the uniform legislation which is substantially similar to Tennessee’s Public Chapter 538 of the Public Acts of 2002, which, when enacted into law by participating states, establishes multistate licensure privileges for registered nurses and licensed practical nurses.

- (m) "Remote state" means a party state, other than the home state:
 - 1. Where the patient is located at the time nursing care is provided; or
 - 2. In the case of the practice of nursing not involving a patient, in such party state where the recipient of nursing practice is located.
- (2) Issuance of License by a Compact Party State – As of July 1, 2005, no applicant for initial licensure may be issued a compact license granting a multi-state privilege to practice unless the applicant first obtains a passing score on the applicable National Council Licensure Examination (NCLEX) or its predecessor examination used for licensure.
 - (a) A nurse applying for a license in a home party state shall produce evidence of the nurse's primary state of residence. Such evidence shall include a declaration signed by the licensee. Further evidence that may be requested may include but is not limited to:

 - (f) The licensure application in the new home state of a nurse under pending investigation by the former home state shall be held in abeyance and the ninety (90) day period in subparagraph (e) shall be stayed until resolution of the pending investigation.
 - (g) The former home state license shall no longer be valid upon the issuance of a new home state license.

(Rule 1000-02-.16, continued)

- (h) If a decision is made by the new home state denying licensure, the new home state shall notify the former home state within ten (10) business days and the former home state may take action in accordance with that state's laws and rules.
- (3) Limitations on Multistate Licensure Privilege – Discipline
- (a) Home state boards shall include in all licensure disciplinary orders and/or agreements that limit practice and/or require monitoring the requirement that the licensee subject to said order and/or agreement will agree to limit the licensee's practice to the home state during the pendency of the disciplinary order and/or agreement. This requirement may, in the alternative, allow the nurse to practice in other party states with prior written authorization from both the home state and such other party state boards.
 - (b) An individual who had a license which was surrendered, revoked, suspended, or an application denied for cause in a prior state of primary residence, may be issued a single state license in a new primary state of residence until such time as the individual would be eligible for an unrestricted license by the prior state(s) of adverse action. Once eligible for licensure in the prior state(s), a multistate license may be issued.

1000-02-.18 ADVERTISING.

- (1) Policy Statement. The lack of sophistication on the part of many of the public concerning nursing services, the importance of the interests affected by the choice of a licensed practical nurse and the foreseeable consequences of unrestricted advertising by nurses which is recognized to pose special possibilities for deception, require that special care be taken by nurses to avoid misleading the public. The licensed practical nurse must be mindful that the benefits of advertising depend upon its reliability and accuracy. Since advertising by nurses is calculated and not spontaneous, reasonable regulation designed to foster compliance with appropriate standards serves the public interest without impeding the flow of useful, meaningful, and relevant information to the public.
- (2) Definitions
 - (a) Advertisement. Informational communication to the public in any manner designed to attract public attention to the practice of a licensed practical nurse who is licensed to practice in Tennessee.
 - (b) Licensee - Any person holding a license to practice as a licensed practical nurse in the State of Tennessee. Where applicable this shall include partnerships and/or corporations.
 - (c) Material Fact - Any fact which an ordinary reasonable and prudent person would need to know or rely upon in order to make an informed decision concerning the choice of practitioners to serve his or her particular needs.
 - (d) Bait and Switch Advertising - An alluring but insincere offer to sell a product or service which the advertiser in truth does not intend or want to sell. Its purpose is to switch consumers from buying the advertised service or merchandise, in order to sell something else, usually for a higher fee or on a basis more advantageous to the advertiser.
 - (e) Discounted Fee - Shall mean a fee offered or charged by a person for a product or service that is less than the fee the person or organization usually offers or charges for the product or service. Products or services expressly offered free of charge shall not be deemed to be offered at a "discounted fee".
- (3) Advertising Fees and Services
 - (a) Fixed Fees. Fixed fees may be advertised for any service. It is presumed unless otherwise stated in the advertisement that a fixed fee for a service shall include the cost of all professional recognized components within generally accepted standards that are required to complete the service.
 - (b) Range of Fees. A range of fees may be advertised for services and the advertisement must disclose the factors used in determining the actual fee, necessary to prevent deception of the public.
 - (c) Discount Fees. Discount fees may be advertised if:
 1. The discount fee is in fact lower than the licensee's customary or usual fee charged for the service; and
 2. The licensee provides the same quality and components of service and material at the discounted fee that are normally provided at the regular, non-discounted fee for that service.

(Rule 1000-02-.18, continued)

- (d) **Related Services and Additional Fees.** Related services which may be required in conjunction with the advertised services for which additional fees will be charged must be identified as such in any advertisement.
 - (e) **Time Period of Advertised Fees.** Advertised fees shall be honored for those seeking the advertised services during the entire time period stated in the advertisement whether or not the services are actually rendered or completed within that time. If no time period is stated in the advertisement of fees, the advertised fee shall be honored for thirty (30) days from the last date of publication or until the next scheduled publication whichever is later whether or not the services are actually rendered or completed within that time.
- (4) **Advertising Content.** The following acts or omissions in the context of advertisement by any licensee shall constitute unprofessional conduct, and subject the licensee to disciplinary action pursuant to Rule 1000-02-.13:
- (a) Claims that the services performed, personnel employed, materials or office equipment used are professionally superior to that which is ordinarily performed, employed, or used, or that convey the message that one licensee is better than another when superiority of services, personnel, materials or equipment cannot be substantiated.
 - (b) The misleading use of an unearned or non-health degree in any advertisement.
 - (c) Promotion of professional services which the licensee knows or should know are beyond the licensee's ability to perform.
 - (d) Techniques of communication which intimidate, exert undue pressure or undue influence over a prospective client.
 - (e) Any appeals to an individual's anxiety in an excessive or unfair manner.
 - (f) The use of any personal testimonial attesting to a quality or competency of a service or treatment offered by a licensee that is not reasonably verifiable.
 - (g) Utilization of any statistical data or other information based on past performances for prediction of future services, which creates an unjustified expectation about results that the licensee can achieve.
 - (h) The communication of personal identifiable facts, data, or information about a patient without first obtaining patient consent.
 - (i) Any misrepresentation of a material fact.
 - (j) The knowing suppression, omission or concealment of any material fact or law without which the advertisement would be deceptive or misleading.
 - (k) Statements concerning the benefits or other attributes of nursing procedures or products that involve significant risks without including:
 - 1. A realistic assessment of the safety and efficiency of those procedures or products; and
 - 2. The availability of alternatives; and

(Rule 1000-02-.18, continued)

3. Where necessary to avoid deception, descriptions or assessment of the benefits or other attributes of those alternatives.
 - (l) Any communication which creates an unjustified expectation concerning the potential results of any treatment.
 - (m) Failure to comply with the rules governing advertisement of fees and services, or advertising records.
 - (n) The use of "bait and switch" advertisements. Where the circumstances indicate "bait and switch" advertising, the Board may require the licensee to furnish data or other evidence pertaining to those sales at the advertised fee as well as other sales.
 - (o) Misrepresentation of a licensee's credentials, training, experience, or ability.
 - (p) Failure to include the corporation, partnership or individual licensee's name, address, and telephone number in any advertisement. Any corporation, partnership or association which advertises by use of a trade name or otherwise fails to list all licensees practicing at a particular location shall:
 1. Upon request provide a list of all licensees practicing at that location; and
 2. Maintain and conspicuously display at the licensee's office, a directory listing all licensees practicing at that location.
 - (q) Failure to disclose the fact of giving compensation or anything of value to representatives of the press, radio, television or other communicative medium in anticipation of or in return for any advertisement (for example, newspaper article) unless the nature, format or medium of such advertisement make the fact of compensation apparent.
 - (r) After thirty (30) days of the licensee's departure, the use of the name of any licensee formerly practicing at or associated with any advertised location or on office signs or buildings. This rule shall not apply in the case of a retired or deceased former associate who practiced in association with one or more of the present occupants if the status of the former associate is disclosed in any advertisement or sign.
 - (s) Stating or implying that a certain licensee provides all services when any such services are performed by another licensee.
 - (t) Directly or indirectly offering, giving, receiving, or agreeing to receive any fee or other consideration to or from a third party for the referral of a patient in connection with the performance of professional services.
- (5) Advertising Records and Responsibility
 - (a) Each licensee who is a principal partner, or officer of a firm or entity identified in any advertisement, is jointly and severally responsible for the form and content of any advertisement. This provision shall also include any licensed professional employees acting as an agent of such firm or entity.
 - (b) Any and all advertisements are presumed to have been approved by the licensee named therein.
 - (c) A recording of every advertisement communicated by electronic media, and a copy of every advertisement communicated by print media, and a copy of any other form of

(Rule 1000-02-.18, continued)

advertisement shall be retained by the licensee for a period of two (2) years from the last date of broadcast or publication and be made available for review upon request by the Board or its designee.

- (d) At the time any type of advertisement is placed, the licensee must possess and rely upon information which, when produced, would substantiate the truthfulness of any assertion, omission or representation of material fact set forth in the advertisement or public communication.
- (6) Severability. It is hereby declared that the sections, clauses, sentences and parts of these rules are severable, are not matters of mutual essential inducement, and any of them shall be rescinded if these rules would otherwise be unconstitutional or ineffective. If any one or more sections, clauses, sentences or parts shall for any reason be questioned in court, and shall be adjudged unconstitutional or invalid, such judgment shall not affect, impair or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision or provisions so held unconstitutional or invalid, and the inapplicability or invalidity of any section, clause, sentence or part in any one or more instances shall not be taken to affect or prejudice in any way its applicability or validity in any other instance.
