- (1) No person, partnership, association, corporation, or state, county or local government unit, or any division, department, board or agency thereof, shall establish, conduct, operate, or maintain in the State of Tennessee any home for the aged without having a license. A license shall be issued only to the applicant named and only for the premises listed in the application for licensure. Licenses are not transferable or assignable and shall expire and become invalid annually on the anniversary date of their original issuance. The license shall be conspicuously posted in the home for the aged.
- (2) In order to make application for a license:
- (a) The applicant shall submit an application on a form prepared by the department.
- (b) Each applicant for a license shall pay an annual license fee based on the number of beds as follows:
- | | | |
|----|----------------------------|-------------|
| 1. | Less than 6 beds | \$ 390.00 |
| 2. | 6 to 24 beds, inclusive | \$ 1,040.00 |
| 3. | 25 to 49 beds, inclusive | \$ 1,300.00 |
| 4. | 50 to 74 beds, inclusive | \$ 1,560.00 |
| 5. | 75 to 99 beds, inclusive | \$ 1,820.00 |
| 6. | 100 to 124 beds, inclusive | \$ 2,080.00 |
| 7. | 125 to 149 beds, inclusive | \$ 2,340.00 |
| 8. | 150 to 174 beds, inclusive | \$ 2,600.00 |
| 9. | 175 to 199 beds, inclusive | \$ 2,860.00 |

For homes for the aged of two hundred (200) beds or more the fee shall be two thousand eight hundred and sixty dollars (\$2,860.00) plus two hundred dollars (\$200.00) for each twenty-five (25) beds or fraction thereof in excess of one hundred

(Rule 1200-08-11-.02, continued)

ninety-nine (199) beds. The fee shall be submitted with the application or renewal and is not refundable.

- (c) The issuance of an application form is in no way a guarantee that the completed application will be accepted or that a license will be issued by the department. Residents shall not be admitted to the home until a license has been issued. Applicants shall not hold themselves out to the public as being a home for the aged until the license has been issued. A license shall not be issued until the facility is in substantial compliance with these rules.
 - (d) The applicant must prove the ability to meet the financial needs of the facility.
 - (e) The applicant shall not use subterfuge or other evasive means to obtain a license, such as filing for a license through a second party when an individual has been denied a license or has had a license disciplined or has attempted to avoid inspection and review process.
 - (f) The applicant shall allow the residential home for the aged to be inspected by a Department surveyor. In the event that deficiencies are noted, the applicant shall submit a plan of corrective action to the Board that must be accepted by the Board. Once the deficiencies have been corrected, then the Board shall consider the application for licensure.
- (3) A proposed change of ownership, including a change in a controlling interest, must be reported to the department a minimum of thirty (30) days prior to the change. A new application and fee must be received by the department before the license may be issued.
- (a) For the purpose of licensing, the licensee of a home for the aged has the ultimate responsibility for the operation of the facility, including the final authority to make or control operational decisions and legal responsibility for the business management. A change of ownership occurs whenever this ultimate legal authority for the responsibility of the home's operation is transferred.
 - (b) A change of ownership occurs whenever there is a change in the legal structure by which the home is owned and operated.
 - (c) Transactions constituting a change of ownership include, but are not limited to, the following:
 - 1. Transfer of the facility's legal title;
 - 2. Lease of the facility's operations;
 - 3. Dissolution of any partnership that owns, or owns a controlling interest in, the facility;
 - 4. One partnership is replaced by another through the removal, addition or substitution of a partner;
 - 5. Removal of the general partner or general partners, if the facility is owned by a limited partnership;
 - 6. Merger of a facility owner (a corporation) into another corporation where, after the merger, the owner's shares of capital stock are canceled;
 - 7. The consolidation of a corporate facility owner with one or more corporations; or

(Rule 1200-08-11-.02, continued)

8. Transfers between levels of government.
- (d) Transactions which do not constitute a change of ownership include, but are not limited to, the following:
 1. Changes in the membership of a corporate board of directors or board of trustees;
 2. Two (2) or more corporations merge and the originally-licensed corporation survives;
 3. Changes in the membership of a non-profit corporation;
 4. Transfers between departments of the same level of government; or
 5. Corporate stock transfers or sales, even when a controlling interest.
 - (e) Management agreements are generally not changes of ownership if the owner continues to retain ultimate authority for the operation of the facility. However, if the ultimate authority is surrendered and transferred from the owner to a new manager, then a change of ownership has occurred.
 - (f) Sale/lease-back agreements shall not be treated as changes in ownership if the lease involves the facility's entire real and personal property and if the identity of the lessee, who shall continue the operation, retains the exact same legal form as the former owner.
- (4) Renewal.
 - (a) In order to renew a license, each residential home for the aged shall submit to periodic inspections by Department surveyors for compliance with these rules. If deficiencies are noted, the licensee shall submit an acceptable plan of corrective action and shall remedy the deficiencies. In addition, each licensee shall submit a renewal form approved by the board and applicable renewal fee prior to the expiration date of the license.
 - (b) If a licensee fails to renew its license prior to the date of its expiration but submits the renewal form and fee within sixty (60) days thereafter, the licensee may renew late by paying, in addition to the renewal fee, a late penalty of one hundred dollars (\$100) per month for each month or fraction of a month that renewal is late; provided that the late penalty shall not exceed twice the renewal fee.
 - (c) In the event that a licensee fails to renew its license within the sixty (60) day grace period following the license expiration date, then the licensee shall reapply for a license by submitting the following to the Board office:
 1. A completed application for licensure; and
 2. The license fee provided in rule 1200-08-11-.02(2)(b).
 - (d) Upon reapplication, the licensee shall submit to an inspection of the facility by Department of Health surveyors.
 - (5) A license shall be issued only for the location designated and the licensee named in the application. If a home moves to a new location, a new license will be required before

(Rule 1200-08-11-.02, continued)

residents are admitted. A licensee who plans to relocate must contact the department to inspect the new building prior to relocation.

- (6) Any admission in excess of the licensed bed capacity is prohibited.
- (7) A separate license shall be required for each home for the aged when more than one home is operated under the same management or ownership.

1200-08-11-.09 INFECTIOUS AND HAZARDOUS WASTE.

- (1) Each home for the aged must develop, maintain and implement written policies and procedures for the definition and handling of its infectious waste. These policies and procedures must comply with the standards of this section.
- (2) The following waste shall be considered to be infectious waste:
 - (a) Waste contaminated by residents who are isolated due to communicable disease, as provided in the U.S. Centers for Disease Control "Guidelines for Isolation Precautions in Hospitals";
 - (b) Cultures and stocks of infectious agents including specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biologicals, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, and mix cultures;
 - (c) Waste human blood and blood products such as serum, plasma, and other blood components;
 - (d) Pathological waste, such as tissues, organs, body parts, and body fluids that are removed during surgery and autopsy;
 - (e) All discarded sharps (including but not limited to, hypodermic needles, syringes, pasteur pipettes, broken glass, scalpel blades) used in resident care or which have come into contact with infectious agents during use in medical, research, or industrial laboratories;
 - (f) Other waste determined to be infectious by the facility in its written policy.
- (3) Infectious and hazardous waste must be segregated from other waste at the point of generation (i.e., the point at which the material becomes a waste) within the facility.
- (4) Waste must be packaged in a manner that will protect waste handlers and the public from possible injury and disease that may result from exposure to the waste. Such packaging must provide for containment of the waste from the point of generation up to the point of proper treatment or disposal. Packaging must be selected and utilized for the type of waste the packages will contain, how the waste will be treated and disposed, and how it will be handled and transported, prior to treatment and disposal.
 - (a) Contaminated sharps must be directly placed in leakproof, rigid, and puncture-resistant containers which must be tightly sealed.
 - (b) Whether disposable or reusable, all containers, bags, and boxes used for containment and disposal of infectious waste must be conspicuously identified. Packages containing infectious waste which pose additional hazards (including but not limited to, chemical,

(Rule 1200-08-11-.09, continued)

- radiologicals) must also be conspicuously identified to clearly indicate those additional hazards.
- (c) Reusable containers for infectious waste must be thoroughly sanitized each time they are emptied, unless the surfaces of the containers have been completely protected from contamination by disposable liners or other devices removed with the waste.
 - (d) Opaque packaging must be used for pathological waste.
- (5) After packaging, waste must be handled and transported by methods ensuring containment and preservation of the integrity of the packaging, including the use of secondary containment where necessary. Plastic bags of infectious waste must be transported by hand.
- (6) Waste must be stored in a manner which preserves the integrity of the packaging, inhibits rapid microbial growth and putrefaction, and minimizes the potential of exposure or access by unknowing persons.
- (a) Waste must be stored in a manner and location which affords protection from animals, precipitation, wind, and direct sunlight, does not present a safety hazard, does not provide a breeding place or food source for insects or rodents, and does not create a nuisance.
 - (b) Pathological waste must be promptly treated, disposed of, or placed into refrigerated storage.
- (7) In the event of spills, ruptured packaging, or other incidents where there is a loss of containment of waste, the facility must ensure that proper actions are immediately taken to:
- (a) Isolate the area from the public and non-essential personnel;
 - (b) To the extent practicable, repackage all spilled waste and contaminated debris in accordance with the requirements of paragraph 6 of this section;
 - (c) Sanitize all contaminated equipment and surfaces according to written policies and procedures which specify how this will be done appropriately; and,
 - (d) Complete an incident report and maintain a copy on file.
- (8) Except as provided otherwise in this rule, a facility must treat or dispose of infectious waste by one or more of the methods specified in this paragraph.
- (a) A facility may treat infectious waste in an on-site sterilization or disinfection device, or in an incinerator or a steam sterilizer, which has been designed, constructed, operated and maintained so that infectious waste treated in such a device is rendered non-infectious and is, if applicable, authorized for that purpose pursuant to current rules of the Department of Environment and Conservation. A valid permit or other written evidence of having complied with the Tennessee Air Pollution Control Regulations shall be available for review, if required. Each sterilizing or disinfecting cycle must contain appropriate indicators to assure that conditions were met for proper sterilization or disinfection or materials included in the cycle, and appropriate records kept. Proper operation of such devices must be verified at least monthly, and records of the monthly verifications shall be available for review. Waste that contains toxic chemicals that would be volatilized by steam must not be treated in steam sterilizers. Infectious waste that has been rendered to carbonized or mineralized ash shall be deemed non-infectious. Unless otherwise hazardous and subject to the hazardous waste management requirements of the current rules of the Department of Environment and

(Rule 1200-08-11-.09, continued)

Conservation, such ash shall be disposable as a (non-hazardous) solid waste under current rules of the Department of Environment and Conservation.

- (b) A facility may discharge liquid or semi-liquid infectious waste to the collection sewerage system of a wastewater treatment facility which is subject to a permit pursuant to T.C.A. §§ 69-3-101, et seq., provided that such discharge is in accordance with any applicable terms of that permit and/or any applicable municipal sewer use requirements.
 - (c) Any health care facility accepting waste from another state must promptly notify the Department of Environment and Conservation, county, and city public health agencies, and must strictly comply with all applicable local, state and federal regulations.
- (9) The facility may have waste transported off-site for storage, treatment, or disposal. Such arrangements must be detailed in a written contract, available for review. If such off-site location is located within Tennessee, the facility must ensure that it has all necessary State and local approvals, and such approvals shall be available for review. If the off-site location is within another state, the facility must notify in writing all public health agencies with jurisdiction that the location is being used for management of the facility's waste. Waste shipped off-site must be packaged in accordance with applicable federal and state requirements. Waste transported to a sanitary landfill in this state must meet the requirements of current rules of the Department of Environment and Conservation.
- (10) Human anatomical remains which are transferred to a mortician for cremation or burial shall be exempt from the requirements of this rule.
- (11) All garbage, trash and other non-infectious waste shall be stored and disposed of in a manner that must not permit the transmission of disease, create a nuisance, provide a breeding place for insects and rodents, or constitute a safety hazard. All containers for waste shall be water tight, constructed of easily-cleanable material, and shall be kept on elevated platforms.

1200-08-11-.12 POLICIES AND PROCEDURES FOR HEALTH CARE DECISION-MAKING.

- (1) Pursuant to this Rule, each home for the aged shall maintain and establish policies and procedures governing the designation of a health care decision-maker for making health care decisions for a resident who is incompetent or who lacks capacity, including but not limited to allowing the withholding of CPR measures from individual residents. An adult or emancipated minor may give an individual instruction. The instruction may be oral or written. The instruction may be limited to take effect only if a specified condition arises.
- (2) An adult or emancipated minor may execute an advance directive for health care. The advance directive may authorize an agent to make any health care decision the resident could have made while having capacity, or may limit the power of the agent, and may include individual instructions. The effect of an advance directive that makes no limitation on the agent's authority shall be to authorize the agent to make any health care decision the resident could have made while having capacity.
- (3) The advance directive shall be in writing, signed by the resident, and shall either be notarized or witnessed by two (2) witnesses. Both witnesses shall be competent adults, and neither of them may be the agent. At least one (1) of the witnesses shall be a person who is not related to the resident by blood, marriage, or adoption and would not be entitled to any portion of the estate of the resident upon the death of the resident. The advance directive shall contain a clause that attests that the witnesses comply with the requirements of this paragraph.
- (4) Unless otherwise specified in an advance directive, the authority of an agent becomes effective only upon a determination that the resident lacks capacity, and ceases to be effective upon a determination that the resident has recovered capacity.
- (5) A facility may use any advanced directive form that meets the requirements of the Tennessee Health Care Decisions Act or has been developed and issued by the Board for Licensing Health Care Facilities.
- (6) A determination that a resident lacks or has recovered capacity, or that another condition exists that affects an individual instruction or the authority of an agent shall be made by the designated physician, who is authorized to consult with such other persons as he or she may deem appropriate.
- (7) An agent shall make a health care decision in accordance with the resident's individual instructions, if any, and other wishes to the extent known to the agent. Otherwise, the agent shall make the decision in accordance with the resident's best interest. In determining the resident's best interest, the agent shall consider the resident's personal values to the extent known.
- (8) An advance directive may include the individual's nomination of a court-appointed guardian.

(Rule 1200-08-11-.12, continued)

- (9) A health care facility shall honor an advance directive that is executed outside of this state by a nonresident of this state at the time of execution if that advance directive is in compliance with the laws of Tennessee or the state of the resident's residence.
- (10) No health care provider or institution shall require the execution or revocation of an advance directive as a condition for being insured for, or receiving, health care.
- (11) Any living will, durable power of attorney for health care, or other instrument signed by the individual, complying with the terms of Tennessee Code Annotated, Title 32, Chapter 11, and a durable power of attorney for health care complying with the terms of Tennessee Code Annotated, Title 34, Chapter 6, Part 2, shall be given effect and interpreted in accord with those respective acts. Any advance directive that does not evidence an intent to be given effect under those acts but that complies with these regulations may be treated as an advance directive under these regulations.
- (12) A resident having capacity may revoke the designation of an agent only by a signed writing or by personally informing the supervising health care provider.
- (13) A resident having capacity may revoke all or part of an advance directive, other than the designation of an agent, at any time and in any manner that communicates an intent to revoke.
- (14) A decree of annulment, divorce, dissolution of marriage, or legal separation revokes a previous designation of a spouse as an agent unless otherwise specified in the decree or in an advance directive.
- (15) An advance directive that conflicts with an earlier advance directive revokes the earlier directive to the extent of the conflict.
- (16) Surrogates.
 - (a) An adult or emancipated minor may designate any individual to act as surrogate by personally informing the supervising health care provider. The designation may be oral or written.
 - (b) A surrogate may make a health care decision for a resident who is an adult or emancipated minor if and only if:
 1. The resident has been determined by the designated physician to lack capacity, and
 2. No agent or guardian has been appointed, or
 3. The agent or guardian is not reasonably available.
 - (c) In the case of a resident who lacks capacity, the resident's surrogate shall be identified by the supervising health care provider and documented in the current clinical record of the facility at which the resident is receiving health care.
 - (d) The resident's surrogate shall be an adult who has exhibited special care and concern for the resident, who is familiar with the resident's personal values, who is reasonably available, and who is willing to serve.
 - (e) Consideration may be, but need not be, be given in order of descending preference for service as a surrogate to:

(Rule 1200-08-11-.12, continued)

1. The resident's spouse, unless legally separated;
 2. The resident's adult child;
 3. The resident's parent;
 4. The resident's adult sibling;
 5. Any other adult relative of the resident; or
 6. Any other adult who satisfies the requirements of 1200-08-11-.12(16)(d).
- (f) No person who is the subject of a protective order or other court order that directs that person to avoid contact with the resident shall be eligible to serve as the resident's surrogate.
- (g) The following criteria shall be considered in the determination of the person best qualified to serve as the surrogate:
1. Whether the proposed surrogate reasonably appears to be better able to make decisions either in accordance with the known wishes of the resident or in accordance with the resident's best interests;
 2. The proposed surrogate's regular contact with the resident prior to and during the incapacitating illness;
 3. The proposed surrogate's demonstrated care and concern;
 4. The proposed surrogate's availability to visit the resident during his or her illness; and
 5. The proposed surrogate's availability to engage in face-to-face contact with health care providers for the purpose of fully participating in the decision-making process.
- (h) If the resident lacks capacity and none of the individuals eligible to act as a surrogate under 1200-08-11-.12(16)(c) through 1200-08-11-.12(16)(g) is reasonably available, the designated physician may make health care decisions for the resident after the designated physician either:
1. Consults with and obtains the recommendations of a facility's ethics mechanism or standing committee in the facility that evaluates health care issues; or
 2. Obtains concurrence from a second physician who is not directly involved in the resident's health care, does not serve in a capacity of decision-making, influence, or responsibility over the designated physician, and is not under the designated physician's decision-making, influence, or responsibility.
- (i) In the event of a challenge, there shall be a rebuttable presumption that the selection of the surrogate was valid. Any person who challenges the selection shall have the burden of proving the invalidity of that selection.
- (j) A surrogate shall make a health care decision in accordance with the resident's individual instructions, if any, and other wishes to the extent known to the surrogate. Otherwise, the surrogate shall make the decision in accordance with the surrogate's determination of the resident's best interest. In determining the resident's best interest,

(Rule 1200-08-11-.12, continued)

the surrogate shall consider the resident's personal values to the extent known to the surrogate.

- (k) A surrogate who has not been designated by the resident may make all health care decisions for the resident that the resident could make on the resident's own behalf, except that artificial nutrition and hydration may be withheld or withdrawn for a resident upon a decision of the surrogate only when the designated physician and a second independent physician certify in the resident's current clinical records that the provision or continuation of artificial nutrition or hydration is merely prolonging the act of dying and the resident is highly unlikely to regain capacity to make medical decisions.
 - (l) Except as provided in 1200-08-11-.12(16)(m):
 - 1. Neither the treating health care provider nor an employee of the treating health care provider, nor an operator of a health care institution nor an employee of an operator of a health care institution may be designated as a surrogate; and
 - 2. A health care provider or employee of a health care provider may not act as a surrogate if the health care provider becomes the resident's treating health care provider.
 - (m) An employee of the treating health care provider or an employee of an operator of a health care institution may be designated as a surrogate if:
 - 1. The employee so designated is a relative of the resident by blood, marriage, or adoption; and
 - 2. The other requirements of this section are satisfied.
 - (n) A health care provider may require an individual claiming the right to act as surrogate for a resident to provide written documentation stating facts and circumstances reasonably sufficient to establish the claimed authority.
- (17) Guardian.
- (a) A guardian shall comply with the resident's individual instructions and may not revoke the resident's advance directive absent a court order to the contrary.
 - (b) Absent a court order to the contrary, a health care decision of an agent takes precedence over that of a guardian.
 - (c) A health care provider may require an individual claiming the right to act as guardian for a resident to provide written documentation stating facts and circumstances reasonably sufficient to establish the claimed authority.
- (18) A designated physician who makes or is informed of a determination that a resident lacks or has recovered capacity, or that another condition exists which affects an individual instruction or the authority of an agent, guardian, or surrogate, shall promptly record the determination in the resident's current clinical record and communicate the determination to the resident, if possible, and to any person then authorized to make health care decisions for the resident.
- (19) Except as provided in 1200-08-11-.12(20) through 1200-08-11-.12(22), a health care provider or institution providing care to a resident shall:

(Rule 1200-08-11-.12, continued)

- (a) Comply with an individual instruction of the resident and with a reasonable interpretation of that instruction made by a person then authorized to make health care decisions for the resident; and
 - (b) Comply with a health care decision for the resident made by a person then authorized to make health care decisions for the resident to the same extent as if the decision had been made by the resident while having capacity.
- (20) A health care provider may decline to comply with an individual instruction or health care decision for reasons of conscience.
- (21) A health care institution may decline to comply with an individual instruction or health care decision if the instruction or decision is:
 - (a) Contrary to a policy of the institution which is based on reasons of conscience, and
 - (b) The policy was timely communicated to the resident or to a person then authorized to make health care decisions for the resident.
- (22) A health care provider or institution may decline to comply with an individual instruction or health care decision that requires medically inappropriate health care or health care contrary to generally accepted health care standards applicable to the health care provider or institution.
- (23) A health care provider or institution that declines to comply with an individual instruction or health care decision pursuant to 1200-08-11-.12(20) through 1200-08-11-.12(22) shall:
 - (a) Promptly so inform the resident, if possible, and any person then authorized to make health care decisions for the resident;
 - (b) Provide continuing care to the resident until a transfer can be effected or until the determination has been made that transfer cannot be effected;
 - (c) Unless the resident or person then authorized to make health care decisions for the resident refuses assistance, immediately make all reasonable efforts to assist in the transfer of the resident to another health care provider or institution that is willing to comply with the instruction or decision; and
 - (d) If a transfer cannot be effected, the health care provider or institution shall not be compelled to comply.
- (24) Unless otherwise specified in an advance directive, a person then authorized to make health care decisions for a resident has the same rights as the resident to request, receive, examine, copy, and consent to the disclosure of medical or any other health care information.
- (25) A health care provider or institution acting in good faith and in accordance with generally accepted health care standards applicable to the health care provider or institution is not subject to civil or criminal liability or to discipline for unprofessional conduct for:
 - (a) Complying with a health care decision of a person apparently having authority to make a health care decision for a resident, including a decision to withhold or withdraw health care;
 - (b) Declining to comply with a health care decision of a person based on a belief that the person then lacked authority; or

(Rule 1200-08-11-.12, continued)

- (c) Complying with an advance directive and assuming that the directive was valid when made and had not been revoked or terminated.

- (26) An individual acting as an agent or surrogate is not subject to civil or criminal liability or to discipline for unprofessional conduct for health care decisions made in good faith.

- (27) A person identifying a surrogate is not subject to civil or criminal liability or to discipline for unprofessional conduct for such identification made in good faith.

- (28) A copy of a written advance directive, revocation of an advance directive, or designation or disqualification of a surrogate has the same effect as the original.

- (29) The withholding or withdrawal of medical care from a resident in accordance with the provisions of the Tennessee Health Care Decisions Act shall not, for any purpose, constitute a suicide, euthanasia, homicide, mercy killing, or assisted suicide.

- (30) Physician Orders for Scope of Treatment (POST)
 - (a) Physician Orders for Scope of Treatment (POST) may be issued by a physician for a patient with whom the physician has a bona fide physician-patient relationship, but only:
 - 1. With the informed consent of the patient;
 - 2. If the patient is a minor or is otherwise incapable of making an informed decision regarding consent for such an order, upon request of and with the consent of the agent, surrogate, or other person authorized to consent on the patient's behalf under the Tennessee Health Care Decisions Act; or
 - 3. If the patient is a minor or is otherwise incapable of making an informed decision regarding consent for such an order and the agent, surrogate, or other person authorized to consent on the patient's behalf under the Tennessee Health Care Decisions Act, is not reasonably available, if the physician determines that the provision of cardio pulmonary resuscitation would be contrary to accepted medical standards.

 - (b) A POST may be issued by a physician assistant, nurse practitioner or clinical nurse specialist for a patient with whom such physician assistant, nurse practitioner or clinical nurse specialist has a bona fide physician assistant-patient or nurse-patient relationship, but only if:
 - 1.
