1730-02-.15 DISCIPLINARY ACTIONS, CIVIL PENALTIES, ASSESSMENT OF COSTS, AND SCREENING PANELS.

- (1) Purpose - The purpose of this rule is to set out a schedule designating the minimum and maximum civil penalties which may be assessed.

(Rule 1730-02-.15, continued)

- (2) Upon a finding by the Board that a veterinarian and/or premises owner has violated any provision of the Tennessee Veterinary Medical Practice Act (T.C.A. §§63-12-101 et seq.) or the rules promulgated thereto, the Board may impose any of the following actions separately or in any combination, deemed appropriate to the offense:
- (a) Advisory Censure - This is a written action issued to the veterinarian and/or premises owner for minor or near infractions. It is informal and advisory in nature and does not constitute a formal disciplinary action.
 - (b) Formal censure or reprimand - This is a written action issued to a veterinarian and/or premises owner for one time and less severe violations. It is a formal disciplinary action.
 - (c) Probation - This is a formal disciplinary action which places a veterinarian and/or premises owner on close scrutiny for a fixed period of time. This action may be combined with any other formal disciplinary action and include conditions which must be met before probation will be lifted and/or which restrict or condition the licensee's activities during the probationary period.
 - (d) Suspension - This is a formal disciplinary action which suspends a licensee's right to practice and/or premises owner to operate for a fixed period of time. It contemplates the reentry of the licensee into the practice and/or operation under the premises permit previously issued.
 - (e) Revocation for Cause. This is the most severe form of disciplinary action which removes an individual from the practice of the profession and terminates the certification or licensure previously issued. The Board, in its discretion, may allow reinstatement of a revoked certificate, license or premises permit upon conditions and after a period of time it deems appropriate. No petition for reinstatement and no new application for certification, licensure, or premises permit from a person whose license or permit was revoked shall be considered prior to the expiration of at least one year unless otherwise stated in the Board's revocation order.
 - (f) Conditions - Any action deemed appropriate by the Board to be required of a premises permit holder in any of the following circumstances:

(Rule 1730-02-.15, continued)

2. Appear before animal owners in a laboratory coat, clinic smock or other garment which is customarily worn by practitioners when treating animals.
 3. Consultation with another practitioner concerning the treatment of the person's animal(s) in the presence of or within hearing of, any animal owner; provided, however, that he may discuss with a subsequent treating practitioner, out of the presence or hearing of any animal owner, prior diagnosis or pre-existing treatment plan and such subsequent treating practitioner's proposed treatment plan. However, the fact or substance of such discussion shall not be communicated or conveyed to an animal owner personally, or by another treating practitioner who presents it to the owner, as that person's judgment, diagnosis, treatment plan, or other professional determination.
 4. Personal acceptance of payment for veterinary services directly from an animal owner in the reception area of the office, clinic, or animal hospital.
- (i) Once ordered, probation, suspension, revocation, assessment of a civil penalty, or any other condition of any type of disciplinary action may not be lifted unless and until the licensee and/or premises owner petitions, pursuant to paragraph (3) of this rule, and appears before the Board after the period of initial probation, suspension, revocation, or other conditioning has run and all conditions placed on the probation, suspension, revocation, have been met, and after any civil penalties assessed have been paid.
- (3) Order of Compliance - This procedure is a necessary adjunct to previously issued disciplinary orders and is available only when a petitioner has completely complied with the provisions of a previously issued disciplinary order, including a veterinary facility civil penalty order regarding operation without a permit, and wishes or is required to obtain an order reflecting that compliance.
- (a) The Board will entertain petitions for an Order of Compliance as a supplement to a previously issued order upon strict compliance with the procedures set forth in subparagraph (b) in only the following three (3) circumstances:
1. When the petitioner can prove compliance with all the terms of the previously issued order and is seeking to have an order issued reflecting that compliance; or

 3. When the petitioner can prove compliance with all the terms of the previously issued order and is seeking to have an order issued reinstating a premises permit previously revoked.
- (b) Procedures
1. The petitioner shall submit a Petition for Order of Compliance, as contained in subparagraph (c), to the Board's Administrative Office that shall contain all of the following:
 - (i) A copy of the previously issued order; and

If proof of compliance requires testimony of an individual(s), including that of the petitioner, the petitioner must submit signed statements from every individual the petitioner intends to rely upon attesting, under oath, to the compliance. The Board's consultant and administrative staff, in their discretion, may require such signed statements to be notarized. No documentation or testimony other than that submitted will be considered in making an initial determination on, or a final order in response to, the petition.
 - 2. The Board authorizes its consultant and administrative staff to make an initial determination on the petition and take one of the following actions:
 - (i) Certify compliance and have the matter scheduled for presentation to the Board as an uncontested matter; or
 - (ii) Deny the petition, after consultation with legal staff, if compliance with all of the provisions of the previous order is not proven and notify the petitioner of what provisions remain to be fulfilled and/or what proof of compliance was either not sufficient or not submitted.
 - 3. If the petition is presented to the Board the petitioner may not submit any additional documentation or testimony other than that contained in the petition as originally submitted.
 - 4. If the Board finds that the petitioner has complied with all the terms of the previous order an Order of Compliance shall be issued.
 - 5. If the petition is denied either initially by staff or after presentation to the Board and the petitioner believes compliance with the order has been sufficiently proven the petitioner may, as authorized by law, file a petition for a declaratory order pursuant to the provisions of T.C.A. § 4-5-223 and rule 1200-10-01-.11.

It is also not intended to allow a petition for a lesser disciplinary action, or civil penalty other than the one(s) previously ordered. All such provisions of Board orders were subject to reconsideration and appeal under the provisions of the Uniform Administrative Procedures Act (T.C.A. §§ 4-5-301, et seq.). upon attesting, under oath, to the reasons why compliance is impossible. No documentation or testimony other than that submitted will be considered in making an initial determination on, or a final order in response to, the petition.

2. The Board authorizes its consultant and administrative staff to make an initial determination on the petition and take one of the following actions:
 - (i) Certify impossibility of compliance and forward the petition to the Office of General Counsel for presentation to the Board as an uncontested matter; or
