Additional Information Required by Joint Government Operations Committee

All agencies, upon filing a rule, must also submit the following pursuant to T.C.A. § 4-5-226(i)(1).

- (A) A brief summary of the rule and a description of all relevant changes in previous regulations effectuated by such rule;

Tennessee State Board of Education Educator Licensure Rules Chapter 0520-02-03 outlines the license types issued in Tennessee and pathways toward licensure.

Revisions were made to rules governing educator license types to ensure alignment across license types and to ensure requirements for license issuance, renewal, advancement, and reactivation are clearly defined. Additionally, revisions were made throughout the Chapter to codify the grace period allowing an educator to renew or advance certain licenses until October 1 following the date of expiration if requirements for renewal/advancement were met before the license expired.

The following revisions were made to Requirements for Teacher Licenses Rule 0520-02-03-.03:

- Clarifies that an educator who has completed an approved educator preparation program in a state other than Tennessee may be issued a practitioner or professional teacher (academic) license if they currently hold a valid Tennessee practitioner or professional occupational license.
- Amends the ability for occupational license holders to be issued a teacher license to include middle and secondary endorsements in the core academic, world languages, and CTE academic categories to align with the teacher license to occupational license pathway.
- Clarifies that an educator who holds a professional-level occupational license in Tennessee can advance a practitioner teacher license to align with occupational advancement options.
- Clarifies that an educator holding a practitioner teacher license following the issuance of a Limited License does not need to complete an Educator Preparation program in order to renew the 1st issuance practitioner teacher license.

The following revisions were made to Requirements for Occupational Teacher Licenses Rule 0520-02-03-.04:

- Clarifies that an educator who has completed an approved educator preparation program in a state other than Tennessee may qualify for a practitioner occupational license if they currently hold a valid Tennessee practitioner or professional teacher (academic) license.
- Clarifies the requirements for issuance of an occupational license for endorsements that do not require an industry certification.
- Removes unnecessary assessment requirements for issuance, renewal, and advancement of occupational licenses to align with Licensure Policy changes.
- Allows an individual holding a practitioner occupational license upon completion of an EPP to add additional occupational endorsements. This revision aligns with the ability for individuals with practitioner teacher (academic) licenses to add endorsements.
- Requires an educator issued an occupational license under pathway 3 to complete an occupational educator preparation program to advance to a professional occupational license. This ensures consistency with the options available to an educator who is issued a practitioner teacher license under the Limited License Rule 0520-02-03-.13.

The following revisions were made to the Requirements for School Services Personnel Licenses Rule 0520-02-03-.05:

- Removes the requirement for all coursework to be completed prior to licensure recommendation for candidates enrolled in a School Counselor preparation program with job-embedded practice who hold, at a minimum, a bachelor's degree under Pathway 2. Removes Pathway 4 as the newly amended Pathway 2 would apply to all candidates recommended for School Counselor licensure enrolled in a program with job-embedded practice.
- Removes unnecessary assessment requirements for issuance of an endorsement in school social work to align with the Professional Assessments for Tennessee Educators Policy 5.105.
- Amends advancement requirements for school service personnel licensure to align with advancement requirements for other educator license types.

The following revisions were made to Requirements for a JROTC License Rule 0520-02-03-.06:

- Amends renewal requirements for JROTC licenses by replacing a valid JROTC "license" with a valid JROTC "training certificate".
- Adds reactivation requirements for JROTC licenses to include an active JROTC "training certificate" and verification that the applicant will be employed in a JROTC program in a Tennessee LEA.

The following revisions were made to Requirements for Postsecondary Educators Rule 0520-02-03-.07:

- Amends assessment requirements to align with other educator license types by replacing the five-year age limit on assessments to instead require current assessments.
- Clarifies that a practitioner postsecondary educator (PSE) license is continuously renewable if advancement requirements are not met.
- Clarifies that if renewal requirements are not met within the validity period, then the license shall expire.

The following revisions were made to Rule 0520-02-03-.10 for Instructional Leader Licenses:

- Amends licensure advancement guidelines to include being current in all TASL hours.
- Clarifies out-of-state experience used for the purpose of obtaining an ILL-P must have accrued out-of-state.

Lastly, revisions were made to Limited License Rule 0520-02-03-.13 to clarify the advancement requirements for educators seeking to advance from a limited license to a practitioner license.

- (B) A citation to and brief description of any federal law or regulation or any state law or regulation mandating promulgation of such rule or establishing guidelines relevant thereto;

T.C.A. § 49-5-108 provides the State Board of Education "complete jurisdiction over the issuance and administration of licenses for supervisors, principals and public school teachers for kindergarten through grade twelve (K-12)" and that the State Board has "authority to promulgate rules and regulations prescribing minimum standards for licenses and certificates."

- (C) Identification of persons, organizations, corporations or governmental entities most directly affected by this rule, and whether those persons, organizations, corporations or governmental entities urge adoption or rejection of this rule;

This rule has a direct effect on the State Board of Education and the Department of Education, and both urge adoption. This rule also has direct effect on local education agencies and educators seeking licensure in Tennessee. The State Board did not hear from any local education agencies or educators urging adoption or rejection of the rule.
