1680-5-3-.01 Authority, Purpose and General Requirements.

- (1) Legal Authority. – Section 54-5-117 of the Tennessee Code provides that bidders for construction contracts to be let and awarded by the Tennessee Department of Transportation shall be responsible and qualified under state law and any applicable regulations. It further empowers the Commissioner to adopt such reasonable regulations as the Commissioner deems proper for the qualification of bidders as to financial responsibility, experience, organization and equipment, the number of contracts, the aggregate of the contract amounts at the contract unit prices, the character of construction, the number of miles of construction each bidder or contractor may have under contract or construction at any given time, and/or any other matter which would in the Commissioner’s judgment promote the best interests of the State of Tennessee in its highway construction, with the power to adopt such regulations being expressly not limited to the matters expressly mentioned in the statute.

- (2) Purpose. – The purpose of these rules is to establish procedures and criteria by which the Department determines the responsibility and qualifications of prospective bidders and subcontractors to perform contracts or subcontracts for or related to the construction, improvement and/or maintenance of roads and bridges which are to be let, awarded and administered by the Department. In general, but without limiting any of the following rules, it is the intent of this chapter to govern the prequalification of bidders and subcontractors based on their demonstrated ability, experience and capacity to perform the work required; the quality and timeliness of their past work performance; their financial responsibility; and the integrity of their business practices.

- (3) General Requirements.
 - (a) A prospective bidder or contractor must be prequalified by and in good standing with the Department prior to the issuance of a proposal form.
 - (b) A prospective subcontractor must be prequalified by and in good standing with the Department prior to being approved as a subcontractor.
 - (c) Nothing in this rule shall be construed to prohibit any person from requesting or obtaining a void proposal form for any purpose other than submitting a proposal to the Department.

Authority: T.C.A. §§ 54-5-117 and 4-3-2303.

 - (b) New information concerning the financial responsibility or business integrity of the applicant, affiliates of the applicant, and/or partners, owners, officers or authorized representatives of the applicant;
 - (c) The applicant or any affiliate has made false, deceptive or fraudulent statements in its prequalification application;
 - (d) The applicant or any affiliate has failed to complete, defaulted on or had any contract with the Department terminated for cause;
 - (e) The applicant or any affiliate has existing incomplete contracts with the Department on which it is behind schedule to such an extent that it might hinder or prevent prompt completion of any additional contracts with the Department;
 - (f) The applicant or any affiliate has a record of defective workmanship or the use of improper materials on any contract or subcontract with the Department;
 - (g) The applicant or any affiliate has a record of non-compliance with other Department contract requirements, including without limitation the submittal of required documents;
 - (h) The applicant or any affiliate has a record of non-compliance with applicable federal, state or local laws, regulations or ordinances, including without limitation laws, regulations or ordinances relating to workplace safety, environmental protection, equal opportunity employment and contracting, disadvantaged business enterprise program requirements, employee wage and hour requirements, or the prompt payment of subcontractors;
 - (i) The applicant or any of its affiliates owes money to the Department; and/or
 - (j) Any other information the Prequalification Office may have requested, received or examined with respect to the applicant’s responsibility and qualifications.
- (3) Notice of Proposed Revocation or Temporary Disqualification; Pre-Decision Meeting; Compliance Agreements.

- (i) Before taking action to revoke or restrict a prequalification, temporarily disqualify a prequalified bidder or subcontractor, or continue a temporary disqualification, as provided in Subparagraphs (1)(b) and (1)(c) of this Rule, the Director of Construction shall provide the prequalified bidder or subcontractor with written notice of the proposed action, including a brief statement of the reasons for the proposed action.
 - (ii) The notice shall provide a representative of the bidder or subcontractor with an opportunity to have a pre-decision meeting with the Director of Construction to discuss the proposed action and present information that might influence the Director's decision. If requested, the pre-decision meeting shall be held within fourteen (14) days after receipt of the notice of proposed action, unless the Director of Construction consents to an extension of time. The discussion shall be informal, and the participation of persons other than the Director of Construction and a representative of the bidder or subcontractor shall be at the discretion of the Director of Construction.
 - (iii) At the pre-decision meeting, the bidder or subcontractor may choose to present and discuss a proposed compliance agreement as a remedy in lieu of the revocation or temporary disqualification proposed by the Director of Construction. Acceptance of any proposed compliance agreement shall be subject to the approval of the Commissioner.
- (4) Notice of Decision. – Notice of any modification, revocation, restriction or temporary disqualification shall be provided in writing in the same manner as notice of a denial or limitation of prequalification status under Rule 1680-5-3-.05, Paragraph (4), above.
 - (5) Appeal. – A prequalified bidder or subcontractor who has been temporarily disqualified, has had its prequalification status revoked or restricted, or has been denied a requested modification of its prequalification status may appeal such decision to the Commissioner by following the appeal procedure established in Rule 1680-5-3-.08 below.
 - (5) Reservations. – Notwithstanding the foregoing or any other provision of this chapter, the Department reserves the right to establish more restrictive special prequalifications for any particular project and/or the right to suspend, debar or otherwise exclude a prequalified bidder, contractor or subcontractor, as provided in the Department's rules governing contractor debarment and suspension, Chapter 1680-5-1, and any such decision shall not be appealable under this chapter.

Authority: T.C.A. §§ 54-5-117 and 4-3-2303.

1680-5-3-.08 Appeals.

- (1) Grounds for Appeal. – In accordance with these rules, an applicant for prequalification or a prequalified bidder or subcontractor may appeal a decision by the Director of Construction that:
 - (a) Determines the applicant's prequalification or affiliation status, as provided in Rule 1680-5-3-.05;
 - (b) Denies a requested modification of an existing prequalification status, as provided in Rule 1680-5-3-.07, Subparagraph (1) (a);
 - (c) Revokes or restricts an existing prequalification held by the prequalified bidder or subcontractor, as provided in Rule 1680-5-3-.07, Subparagraph (1)(b);

- (d) Temporarily disqualifies a prequalified bidder or subcontractor, as provided in Rule 1680-5-3-.07, Subparagraph (1)(c); or
 - (e) Is otherwise expressly appealable under these rules.
- (2) Filing of Appeal; Timing and Content.
- (a) A request for appeal under these rules must be filed with and received by the Director of Construction, with a copy to the Chief Engineer, no later than fourteen (14) days after delivery to the applicant or prequalified bidder or subcontractor of the adverse decision being appealed. For good cause shown, the Director of Construction may grant a written request for an extension of time, not to exceed an additional fourteen (14) days, within which to file the appeal.
 - (b) Failure to file a request for appeal within the time allowed will result in a denial of the appeal without any hearing.
 - (c) The appeal shall be in writing and shall contain:
 - 1. A detailed statement of the reasons why the appellant believes the Director of Construction's decision was erroneous, improper and/or not in the best interest of the Department;
 - 2. A statement of the relief requested (i.e., a statement of the decision the appellant believes the Commissioner should make on appeal); and
 - 3. Any documentation of evidence that the appellant reasonably believes will support its appeal.
- (3) Informal Hearing Before the Prequalification Committee.
- (a) Upon receiving a request for appeal as provided in the paragraph above, the Director of Construction will promptly notify the Chief Engineer, who shall schedule an informal hearing before the Prequalification Committee.
 - (b) The hearing should, if possible, be scheduled to occur within fourteen (14) days after the date on which the appeal was filed. The Chief Engineer shall notify the appellant of the date, time and place for the hearing. For good cause shown, the Chief Engineer may allow for a continuance of the hearing to a later date.
 - (c) For good cause shown, the Chief Engineer may, but is not required to, stay the decision of the Director of Construction that is the subject of the appeal if:
 - 1. The decision was to revoke or restrict an existing prequalification or to temporarily disqualify a prequalified bidder or subcontractor; and
 - 2. The Chief Engineer determines that it is in the public interest to preserve the status quo pending a hearing and decision on the appeal.
 - (d) The hearing before the Prequalification Committee shall be held at the time and place set by the Chief Engineer, and the Chief Engineer shall preside. A quorum of the Prequalification Committee, consisting of a majority of the members of the Committee, shall be sufficient to conduct the hearing.
 - (e) The hearing will be conducted in an informal manner. A court reporter will be present to create a record of the proceedings, but the Committee may use flexible

procedures to hear evidence and argument presented by the appellant and the Prequalification Office. Formal rules of evidence and civil procedure will not be required. At the discretion of the Chief Engineer, the Committee may hear statements from and question witnesses at the hearing and/or take written statements, and the Committee may consider relevant written documentation that the appellant or the Prequalification Office may wish to present. Both the appellant and the Department may have the assistance of legal counsel in conducting the hearing.

- (f) The Chief Engineer may continue the hearing and reconvene the Prequalification Committee at a later date, if necessary for a full and fair consideration of the appeal.
- (4) Commissioner's Decision. – Upon consideration of the evidence and argument presented at the informal hearing, the Prequalification Committee shall advise the Commissioner and make a recommendation for decision, but the decision shall be the Commissioner's alone. The Commissioner shall give the appellant written notice of the decision, and the reasons therefore, within fourteen (14) days after the close of the Prequalification Committee's informal hearing, unless the time is extended by the Commissioner for good cause. Notice of the decision may be sent by regular mail or other reliable means of delivery. The Commissioner's decision shall be final.
- (5) Inapplicability of Uniform Rules of Procedure. – In accordance with Tennessee Code Annotated §§ 4-5-217 and 4-5-219, these rules establish informal administrative procedures for making and appealing the Department's prequalification decisions. Because prequalification decisions and proceedings are not contested cases under Tennessee Code Annotated § 4-5-102(3), application of the Uniform Rules of Procedure for Hearing Contested Cases Before State Administrative Agencies ("Uniform Rules"), Rules of the Tennessee Department of State, Administrative Procedures Division, Chapter 1360-4-1, is not required by law. The Commissioner further finds that application of the Uniform Rules would be unduly burdensome and would hinder the ability of the Department to make timely and effective decisions concerning the persons or entities with which it may conduct business. It is the intent of these rules, therefore, that the informal administrative procedures established herein will provide for the just, speedy and inexpensive determination of matters before the Prequalification Office, the Prequalification Committee, and the Commissioner and that these rules will allow the Department to take timely and effective remedial action to ensure that it conducts business with responsible and qualified contractors and subcontractors. The procedures established in these rules are subject to amendment as the Commissioner may determine to be in the best interest of the Department, and nothing in these rules shall be construed to create any vested right to any particular process established herein.

Authority: T.C.A. §§ 54-5-117 and 4-3-2303.

1680-5-3-.09 Special Prequalification Requirements.

- (1) Reservation of Right to Establish Special Prequalification Requirements. – Notwithstanding any other provision in this chapter, the Department reserves the right to establish special or additional prequalification requirements for bidders and/or subcontractors on a project-by-project basis whenever, in the judgment of the Department, such special or additional prequalification requirements are in the best interest of the Department because of the project's size, scope, schedule, complexity, environmental sensitivity or any other special circumstance related to the project.
- (2) Notice. – The Department will give notice of any special prequalification requirements and procedures for bidders and/or subcontractors prior to the issuance of the proposal form for the project. Notice shall be given by publication in appropriate newspapers and/or publication on the Construction Division's website, as the Department may determine.

- (3) Rejection of Ineligible or Non-Responsive Bidders or Subcontractors. – The Department reserves the right to refuse to issue a proposal form to any bidder, reject the proposal of any bidder, and/or decline to approve any subcontractor that does not, in the judgment of the Department, meet the special prequalification requirements.

Authority: T.C.A. §§ 54-5-117 and 4-3-2303.

1680-5-3-.10 Bidding, Joint Ventures, and Affiliates.

In addition to any other provisions pertaining to the submission, opening and acceptance or rejection of bids that are contained in the Department's Standard Specifications for Road and Bridge Construction (and as amended or supplemented), the following bidding requirements are established in these prequalification rules.

- (1) Bidding Procedure.
 - (a) To bid on any project advertised by the Department, the bidder must be prequalified in work classification(s) applicable to the project so as to be able to perform with its own forces at least thirty percent (30%) of the total original contract price (or such other amount of the contract as the proposal may require), including the cost of materials and manufactured products that are to be incorporated into the project but excluding specialty items.
 - (b) If the work of a project is not among the work classifications previously identified by the Prequalification Office in the prequalification questionnaire or other forms completed by applicants for prequalification, the Department's advertisement may solicit applications for prequalification in one or more new or project-specific work classifications, or the Department may waive prequalification requirements in whole or part.
 - (c) Unless suspended, debarred or otherwise excluded from participation in Department contracts, a prequalified bidder may request a proposal form or other bidding documents from the Department at any time prior to the opening of bids for the project on which the bidder may be interested in submitting a proposal.
- (2) Joint Ventures.
 - (a) When two or more bidders wish to bid together as a joint venture, each bidder wishing to participate in the joint venture must provide a separate written notice to the Prequalification Office to confirm its intention to bid as a party to the joint venture. Each notice must be signed by an authorized representative of each respective firm. The notices must be received prior to the issuance of a proposal to the joint venture.
 - (b) Each bidder participating in a joint venture must be separately prequalified by the Department; provided, however, that if the joint venture has been formed as a single business entity for the purpose of bidding on a particular project, the joint venture must apply for prequalification as provided in these rules.
 - (c) The joint venturers together must be prequalified in work classification(s) applicable to the project so as to be able to perform with their own combined forces at least thirty percent (30%) of the total original contract price (or such other amount of the contract as the proposal may require), including the cost of materials and manufactured products that are to be incorporated into the project but excluding specialty items.

- (3) Affiliates. – Affiliates of a bidder are prohibited from submitting separate proposals for contract on the same Department project. The Department will not issue a proposal form to more than one affiliated party on the same project.
- (4) Reservation of Right to Reject Bids or Cancel Awards. – In addition to any provision regarding the rejection of bids or cancellation of awards in the Department’s Standard Specifications for Road and Bridge Construction (and as amended or supplemented), the Department reserves the right to reject the bid of any bidder or to cancel the award of a contract to any bidder:
 - (a) Who is not prequalified in the applicable work classification(s) for the project, or whose bid exceeds the limitations of a limited prequalification;
 - (b) Who is the affiliate of any other bidder on the same project, as determined by the Prequalification Office;
 - (c) Who has been temporarily disqualified or has had its prequalification revoked as provided in these rules; or
 - (d) Who has been suspended, debarred, or otherwise excluded under the Department’s rules governing contractor debarment and suspension, Chapter 1680-5-1, or under applicable Federal rules governing the suspension and debarment of contractors.
